FAILS TO SECURE THE NEEDED FUNDS BY TAXATION.

Shipbuilders Will Not Fulfill Contracts Unless Assurances of Payment Are Given-Autonomy Regarded as Worthless by Cuban Leaders.

London, Nov. 12.-Striking evidence of Spain's financial straits is turnished in the spatch of the Madrid correspondent of the Daily Mail, cabled to the Associated Press ase night saying the Spanish government, inding it impossible to raise the sum of 000,000 pounds (\$15,000,000) by loan or taxation to carry out its original navai plans, has decided to build two new cruisers only of 2,000 tons each. The dispatch added that it is intended to summon the cortes as soon as possible to vote credits for the building of more men-of-war and the placing of more powerful guns on board the existing vessels. It is now pointed out that we cruisers mentioned by the Daily Mail Correspondent were to have been battleships for whose construction the government of Spain negotiated with the Armstrong's months ago. The contracts were eventually signed and the keels of the new battleships were laid, but the Armstrong's refused to proceed without assurances of payment. Now it is doubtful if Spain will even be able to pay for the small and comparatively ineffective cruisers which are intended to replace the projected battleships. ion to carry out its original navai plans

Yet in spite this, acording to the correspondent of the Daily Mall, the Spanish
naval authorities claim to regard the Spanish navy as being already superior to the
navy of the United States which may explain some of the bellicose utterances of
the Spanish press.

In connection with Spain's hunt for warships, American diplomats have learned
that Spain recently endeavored to make
an arrangement with Japan whereby in
the event of war with the United States
the thirty or so warships now building in
various ship yards for Japan would be
transferred to Spain, and it is supposed
that upon the failure of these nexotiations
the Spanish government entered upon a
deal with Chile for the transfer to the
Spanish flag of several vessels about com-Spanish flag of several vessels about com-pleted for the Chilean republic.

The diplomats referred to express the

opinion that from the standpoint of in-ternational law, the completion of such a deal might be regarded as an unfriendly act toward the United States. Besides the Rothschilds, other prominent financiers of London and Paris have en-tirely cut off the monetary supplies which Spain has hitherto succeeded in obtaining.

EXPECTING GOOD NEWS.

American Sympathizers With the Cuban Insurrection Looking for a Sensational Story. Weshington, Nov. 12.-Cuban sympathiz

ers in Washington are looking for sensational news from the Island. They have received from sources in which they have confidence the information that active operations will be undertaken by the insurgent leaders. Nothing in detail is given, but a series of hard blows is to be dealt.

A feeling of cheerful hopefulness seems to pervade the whole body of sympathizers Everybody in Washington knows the administration is going no further than to insist that concentration horrors shall case. The friends of the Cubans realize that the president's policy is non-interfrictee for the present, at least, and that trouble with Spain is to be avoided. Nevertheless the friends of the Cubans are predicting that before the winter is over the island will be free. Nowhere among the sympathizers does there seem to be any sentiment in favor of autonomy. The prediction is made with emphasis that the leaders on the island will steadfastly reject all efforts to open negotiations and that they will push the fighting harder than ever. erations will be undertaken by the insur-

METHODIST MISSIONS.

Committee Appropriates 45 Per Cent to Home and 55 Per Cent to Foreign Fields.

Philadelphia, Nov. 12.-The general misionary committee of the extension of the Methodist Episcopal church resumed its ession this morning.

Bishop Andrews, of New York, was in the

thair. When the public meeting was called to order by Bishop Andrews, Rev. Mr. I. F. Chaffee, of Minneapolis, urged the committee to apoint a committee to decommittee to apoint a committee to de-lise ways and means to decrease the debt. After some discussion, Dr. Chaffee's sug-restion was agreed upon.

The question of the division of the ap-propriations to domestic and foreign mis-sions, respectively, was discussed at some ength. The total amount appropriated was \$1,129.940, and \$40,000 additional was ap-propriated for contingent expenses and \$20,000 for incidental expenses. It was de-sided to make the division of the mission-ary fund on the basis of 45 per cent to nome mission and 55 per cent to foreign missions.

umittee was just about to enter

into the apportionment of the amount by districts when a discussion arose over the division to the two branches of the mission work, and upon motion it was reconsidered. A lengthy debate followed, the home mission advocates urging an increase of the percentage for domestic missions. It was finally resolved to let the percentage stand at 45 and 55 per cent.

HONEST MONEY LEAGUE. Executive Committee Pledges Lengue

to Continue the Fight Against Chicago Platform. New York, Nov. 12 .- A meeting of the executive committee of the Democratic Hon-

est Money League, under whose auspices Bourke Cockran stumped the country for William McKinley during the last presidential campaign, was held here to-night. The meeting was prompted by the claims of the Bryan Democrats that the results of the last election were a manifest indersement of the principles which were de-

dersement of the principles which were defeated in 1896.

Major Byrne, one of the members of the committee, said: "We have unfuried the flag and will continue the light in the foarteen states we represent, on the same educational lines which we pursued last year to protect this country and the party against the free silver heresy. We will seek to prevent the return of a senate and haves in 1888 which will be favorable to free silver, just as we succeeded in doing in Maryland at the last election."

An effort was made to pass a resolution An effort was made to pass a resolution petitioning the president to take some ac-

petitioning the president to take some action on the currency question.

A. A. Alling opposed the resolution bitterly. He held that as Democrats, the league had no right to ask a Republican president to do anything.

Another resolution was offered and adopted piedging the lengue to renew and continue the fight against the Chicago platform and its advocates "until it is demonstrated that its vicious heresies have no place in American life and no rest in American soil," denying the practicability of bimetallism, national or international; asserting that safety is to be found only in adherence to the gold standard, and promising to work for the election of senators and representatives and in 1900 of an administration pledged to maintain that standard.

A sub-committee was appointed to draft an address to the American people. This address will probably be made public late Sunday night.

PULP PAPERMAKERS MEET. Form a National Association and Agree to Pool Export

Business. Boston, Nov. 12.-Manufacturers of pulp paper from all parts of the United States ave been in Boston for the last two days, and the result of their deliberations, which were brought to a close late last night, is the forming of a national association to improve the trade and a pooling of export business. The manufacturers present represented 90 per cent or more of th total pulp paper output in the United States.

To bring about a better condition the American Pulp Paper Manufacturer's Association was formed, organizing with N. M. James, of Lincoln. Me., as president and H. T. Barlow, of Boston, as secretary.

PROGRAMME OF ANNUAL MEETING OF STATE ASSOCIATION.

Several Leading Horticulturists of the Country Slated for Addresses Great Value of Fruit and Vegetable Products-Kansas News.

Topeka, Kas., Nov. 12.-(Special.) Sec retary W. H. Barnes, of the Kansas State Horticultural Society, to-day made public the programme for the annual meeting of the association, to be held in this city on December 28-30. Some of the leading horticulturists of the country are slated for

For the purpose of awakening interest mong the horticulturists of Kansas, Secretary Barnes has given out some facts concerning that industry in the official programme. He says:

"There is no more important industry in our state. Nothing so conduces to long life, clear heads, active bodies and social happiness as diet. And the more it is varied with fruits and vegetables, and the more our homes are surrounded by fruits, flowers, lawns, and shade trees, the greatchances of living useful, happy lives. Our tables, at a value of only 1 cent per meal, demand \$15,000,000 worth of fruits and vegetables. We annually send out of the state \$5,000,000 worth more, making \$20,000,000 for horticulture. This is nearly three times as much as all the wheat we grew in 1896, or four times all the oats we grew in 1896. We ought to grow 80 per cent of all the horticultural products we consume; but do we? If our housewives demanded Kansas fruits and vegetables, the Kansas horticulturists would spring to the demand and grow better produce and more of it. But if we demand Colorado potatoes, onions and melons, Michigan celery, New York grapes and apples, California ripe and dried fruits, and canned goods from anywhere and everywhere but home, and depreciate and ridicule Kansas products, we cannot expect improvement.

"We meet to learn. The farmer labors and saves to school his children, and tries to gain his own knowledge by actual exto gain his own knowledge by actual ex-perience; the county and state horticult-ural societies are schools where he may ac-quire knowledge—valuable in his business— by listening to the actual experience of his fellow farmer."

HORSES INSTEAD OF CORN.

Fort Scott Farmer Finds They Make Excellent Fattening Food for Hogs.

Fort Scott, Kas., Nov. 12.—(Special.) The depreciation in the value of horse flesh resulting from the encroachment of the olcycle in the past few years, together v an overproduction of the cheaper grade of mirrals, has opened up a new and some what remarkable enterprise near this city. John Kilburn, a farmer living five miles west, who has become wealthy in the stock business, has, by experiment, proven that hogs fatten quickly on horse flesh, and that that kind of hog food is abundant and profitable. Public attention was called to his new industry the other day, when complaint was made to the county attorney that Mr. Kilburn was slaughtering horses from this city for the purpose of feeding their carcasses to his hogs. It developed that he has been in the business for some time. He has been buying up cheap horses that have served their time of usefulness to that have served their time of usefulness to the farmer, the coal hauler and the team-ster and slaughtering them in his hog pas-ture. This grade of horses is much more plentiful than in years recently gone by, because better horses are so cheap that nearly all can now afford them. It is found that Mr. Kilburn often buys them for from 25 cents to 11 aplece, exclusive of the hide, which goes to the seller and frequently brings many times as much as the horse it-self.

MANHATTAN TRADE CARNIVAL. Ten Thousand Visitors Expected Today at Junction of the Blue

and the Kaw. Manhattan, Kas., Nov. 12.-(Special.) Preparations are made for a big time to-mor-row, the weather is propitious this evening, and to-morrow's carnival will fill the streets with more people than the "old town" has ever seen, everything blds fair to bring about a realization of Manhattan's highes expectations. Special rates have been ob tained on all roads for a radius of fifty miles and this promises with the aid of Riley county to unload 10,000 people into the interesting and promising little city at the junction of the Blue and Kansas. Expense has not been taken into consideration and everyone's comfort and entertainment will be carefully guarded. Four hundred and fifty entries have been made for th and fifty entries have been made for the different prizes which, in the aggregate, will amount to \$1.000. Business houses and residences are profusely decorated with different colored bunting, flags, sunflowers, "King Korn" and farm products.

The parade will take place at 10 a. m., when the day's entertainment begins, concluding with a magnificent display of pyrotechnics.

Topeka, Kas., Nov. II.—(Special.) The contempt proceedings against Trustee Priggs, of Doniphan county, for violating the order of the supreme court in the appointment of election judges at the recent election, were instituted in the supreme court to-day. They consisted of affidavits of Frank Elliott and a few other Doniphan county Pops, claiming that Brigg left the state to avoid having the order of court served on him. Elliott is also trying to get Cy Leland mixed up in it. He claims Cy is the arch conspirator. The supreme judges took charge of the affidavits but when they retired from their rooms to-

night they had taken no action in regard to the matter.

RUFE CONE'S BLOWS TELLING. Likely to Force a Reorganisation of

the Police Force Down at Wichita.

Topcka, Kas., Nov. 12.-(Special.) There s every reason to believe that Rufe Cone s attacks on the Wichita police board are telling and that in a short time the board at that place will be reorganized. Cone makes open charges of boodle against the present board. He says:

"In the first year of Lewelling's administration when I was chief of police there was turned in to the general revenue fund of the city \$3,000. In the first year of the Leedy administration \$950 has been turned in. The present police commissioners have nine more saloons and a hundred slot ma-

in. The present police commissioners have rine more saloons and a hundred slot machines and two other places to collect from than we had. The collections certainy amount to at least \$200 per month, but the city gets \$900 in a year. Where does this money go? It is collected, but what becomes of it?"

The Populists and Democrats of Wichita have agreed to ask the governor to remove "Kurnel" Jocelyn, as Rufe Cone calis him, who is charged with not working to the best interests of the city in poice board affairs. Jocelyn was appointed as a Populist and a considerable element of the party in that city will demand his removal, which it is said the governor has pledged himself to consider. The Democrats have been given to understand that their man, G. K. Spencer, will be permitted to remain on the board.

KANSAS SCHOOL TAXES.

Superintendent Stryker Gives Out Figures to Support His

Contention. Topeka, Kas., Nov. 12 .- (Special.) In order to support his contention for a more equitable system of taxation for school purposes, Superintendent Stryker to-day gave out some more figures concerning the chools of the state. According to them schools of the state. According to them there are 146 schools that have a three months' term, 549 that have four months, 789 that have five months, 2,767 that have six months, 2,436 that have seven months, 1,744 that have eight months, 323 that have nine months, and seventeen that have ten months. He wants it adjusted so that the rural schools of the state will have the length of term.

The taxation figures show great discrepancies. For instance, the records in the superintendent's office show that there are 833 districts in the state where there are 833 districts in the state where the tax levy is below 5 mills, 3,679 in which the tax levy runs from 6 to 10 mills, 2,777 in which the levy is between 10 and 15 mills, 546 in which the levy runs from 15 to 20 mills and 876 where the levy is just 20 mills, the limit allowed by law. To overcome this condition, the superintendent wants a state and county tax levy. In this way he says that the system will be equalized.

PROMINENT FINANCIER DIES. Henry August Hurlbut, of New York, Expires Suddenly of Heart

New York, Nov. 12 .- Henry August Hurlbut, one of New York's leading financiers, dropped dead at the dinner table last evening at his home, 111 West Twentieth street. The cause was heart disease. As was his custom, he went to dinner in company with his son. The conversation turned on the Thorn case and nothing out of the ordi pary was noted in Mr. Hurlbut's manner. When the meal was half over young Hurlbut noted a pause in the conversation, and, looking up, saw that his father's head had sunk upon his breast. He had passed away without uttering a sound and apparently without pain. Mr. Hurlbut had been a citizen of New York for upwards of fifty years, risng to a position of prominence as merchant, manufacturer and financier. He was born in Hartford, Conn. He was a delegate to the convention in Philadelphia which nominated General Grant for the presidency and accepted the place of commissioner of emigration. BURLINGTON GENERAL FREIGHT AGENT PROTECTS KANSAS CITY.

GIVES LOWER COLORADO RATES

USUAL DIFFERENTIAL UNDER ST. LOUIS TO BE PRESERVED.

On Only the Two Lowest Classes of Freight Will There Be Discrimination Against This City Under the New Tariff.

George H. Crosby, of Omaha, general freight agent of the Burlington & Missouri River railroad, arrived in Kansas City yesterday morning. Before 9 o'clock he called on Commissioner Trickett, of the Transportation bureau, and after a confererce with him returned to the Burlington offices and dictated a notice to Walter A Poteet, secretary of the Trans-Missouri Freight bureau, that the Burlington road would protect Kansas City jobbers in the matter of Colorado rates. Mr. Crosby gave the figures which the Burlington will carry, in order to avoid any possibility of another "mistake."

Mr. Crosby did not hesitate to say that Secretary Poteet had made a mistake. He said the resolution which the roads had adopted by wire, and upon which the Colorado tariff was issued, intended to provide for the absolute protection of Kansas City. It was admitted, however, that the resolution might be interpreted differently; it provided for such protection as was needed by Kansas City. Secretary Poteet aimed to "protect" this city by naming commodity rates on such articles as he thought Kansas City jobbers ought to handle. Mr.

sas City jobbers ought to handle. Mr. Crosby said he had understood the resolution to extend to class rates.

Mr. Crosby's notice to Secretary Poteet is too plain to admit of any misinterpretation. He says that effective November 20, the Burlington will make from Missouri river points to Colorado common points the following rates: First-class, 71 cents; second, 56 cents: third, 34 cents; fourth, 25 cents; fifth, 25 cents; class A, 39½ cents; B, 25 cents: classes C, D and E, 15 cents. These rates preserve Kansas City's differentials of 60 cents on first-class; 45 cents on second class; 35 on third class; 27 on fourth class; 27 on fourth class; 22 on fifth class; 24½ on class A; 19½ on class B; 17 qn class C. On classes D and E there is still a discrimination, but to protect the differentials on these classes the rates would have to be made too low to furnish any reasonable revenue to the railroads. There is 5 cents' discrimination on class D and 10 cents on class E. While the business moved on these class rates is important, and its protection highly destrable, the bulk of the freight out of Kansas City for Colorado points takes the higher classes and is protected.

The rates made from the Miss's sippi river were based upon the water and rail rates from New York to Colorado, less the Kanawha Dispatch rates from New York to the Mississippi river.

GRAND ISLAND ENTRANCE. General Freight and Passenger Agent Adait Favors It-Directors

to Decide. General Freight and Passenger Agent S. M. Adsit, of the Grand Island, St. Joseph, was in Kansas City yesterday. Mr. Adsit denied that his trip had any connection with the proposed building of the line from Gower to Carpenter's Store to give the Grand Island entrance to Kansas City.
"Has The Journal's story as to the building of that line ever been confirmed or denied from the general offices of the Grand Island?" asked a reporter.
"It has never been denied," said Mr. Ad-Personally, Mr. Adsit heartly favors the proposition. It is now under consideration by the directors of the road.

WABASH MAY REACH NEW YORK Company Said to Be Negotiating for

Traffic Privileges Into the Big Metropolis. Chicago, Nov. 12 .- It is reported that in he near future the Wabash will to all intents and purposes be a through line from Chicago to New York. A short time since t effected a traffic arrangement with the Grand Trunk which gave it the right to arrangement proved so satisfactory that it is now negotiating with the Ontario & Western for the use of its tracks from fuffalo to New York, under an arrangement similar to that which it now has with the Grand Trunk to Buffalo. When this deal is carried through, the Wabash will operate its train through to New York.

Coombs, of New York, who acted in an advisory capacity to the government in connection with the sale of the Union Pacific railroad, is in the city for the purpose of conferring with the attorney general respecting the affairs of the Central Pacific. The conference is to take place to-morrow. Mr. Coombs says he is not aware of what steps the administration will take to protect the government's interests in the road. Mr. Coombs believes the road will sell at its full commercial value and mentioned the Denver & Rio Grande, the reorganized Union Pacific, the Central Pacific third mortgage bondholders and stockholders and the Southern Pacific Railroad Company as corporations and interests which might bid on the road were it offered for sale at public auction. Chairman Kent Has No Duties.

Chicago, Nov. 12.—Although W. W. Kent has been chosen chairman of the Southwestern Passenger Association, it is not likely that he will, in the near future, be called upon to do any work in his official capacity. The meeting having for its object the revival of the association was called chiefly at the instance of the Missouri, Kansas & Texas. Now the agreement has practically gone by the board, because the Missouri, Kansas & Texas would not assent to an article, which empowered the chairman of the association to test the market at any and all times for tickets sold at unauthorized rates, and in case such tickets were found, to present them to the road issuing them for redemption at full tariff rates.

operations was transferred to the famo Blue cut. October 23, 1896, a Chicago & Alton train was held up at Blue cut but a water haul was made. The work was evidently the work of amateurs, though it was well done, from a train robber's standpoint.

well done, from a train robber's standpoint.

Just two months later to a day, that is, on December 23, a Chicago & Alton train was held up again, and this time booty, variously estimated at from \$2,000 to \$2,000, was secured. John F. Kennedy, James Flynn and G. C. Bollin were arrested for this robbery, and were also charged with the previous attempt at robbery. Flynn "turned state's evidence" and told a weird and circumstantial story of how Kennedy had planned the whole thing. The Alton detectives moved heaven and earth to convict Kennedy, and there were numerous charges that some of the evidence had been secured in the open market. The first trial resulted in a hung jury. Kennedy was tried a second time and acquitted, the jury refusing to believe the story of Informer Flynn.

During Carnival week, a few days before the second trial of Kennedy was about to begin, another "robbery" occurred. This took place-almost inside the city limits of Kansas City, and was such an evident fake designed for the purpose of influencing public sentiment against Kennedy that it has never been pushed.

DEPUTIES STILL AT THE MINE. No Prospect of a Settlement of the Differences of the Brush Creek

Coal Miners. Deputy Marshal S. C. Ragan, in charge of the squad of deputy marshals at the Brush creek coal mines, came into town yesterday to report progress. The deputy marshals were sent to the mines nearly two weeks ago, with the understanding that they were to remain only a few days.
The situation at the mine, however, is such that they will probably stay several days longer.

such that they will probably stay several days longer.

"The strikers are not giving any trouble," said Captain Ragan, "but I look for them to simply take possession of the mine as soon as the deputy marshals are withdrawn. The Journal has correctly stated the situation at the mine. There are not to exceed twenty of the old men in the vicinity of the mine, but they could probably muster a larger number, probably fifty, if they scoured the neighborhood. They keep a pretty close watch on what is going on, though they do not attempt to molest the men who are working in the mines. There are about thirty of these, all colored men, who would probably not put up a very stiff fight if they were attacked and were not backed up by the authorities.

"The strikers are confining their active."

"The strikers are confining their active efforts to spreading the boycott on the products of the Brush creek mine. They products of the Brush creek mine. They meet persons on the road to the mine and try to persuade them not to buy any coal from the company. They are very careful not to commit any breach of the peace, but I believe that the presence of the deputy marshals is necessary for some time to come to keep the peace.

"Of course, I do not know anything as to the merits of the differences between the men and the company but I books to the ments of the differences between the men and the company, but it looks to me as if the men were pretty well content to live on the rations provided by the union men of the city. There is no suffering that I can see, as organized labor in Kan-sis City through the Industrial Council is taking pretty good care of the strikers. It looks as if there was more provisions than the men I can see about the mines actually need. The men are making a pretty good need. The men are making a pretty go living thing nothing and are certainly a position to hold out indefinitely."

J. SCOTT HARRISON INJURED.

Receives Part of a Load of Birdshot in His Face and Neck-His Eye Will Be Saved.

J. Scott Harrison, the well known real estate man and member of the board of education, was accidentally shot and quite painfully wounded while hunting with some friends near Holden Thursday. He is resting quite easily at his home in the city. The most serious injury was to his right eye and until noon yesterday it was supposed he would lose the sight of that organ. Yesterday the inflammation had subsided so that a careful examination could be made and Dr. Tyree, who is caring for him, found the sight uninjured.

He was out with friends shooting quail. One member of the party fired at a bird. r. Harrison was directly in line but or the opposite side of a clump of bushes where he could not be seen. The shot killed the bird but there was enough besides to pepper Mr. Harrison's temple, cheek, neck and shoulder in a very energetic manner, so that it was at first feared he might be deargers with interest. be dangerously injured.

He was taken at once to the home of a friend near by and physicians extracted the shot. One shot hit him in the outer corner of the right eye and was believed to have passed in behind the eyeball. The physicians told him it was probably a serious wound and after he had been carrfully attended to he was brought home here and called Dr. Tyree. The examination of yesterday shows that while the shot did pass in somewhere behind the eye it has not destroyed the sight. The other wounds are simply painful punctures of the fiesh that will not be serious. He will not be out for several days. for several days.

JURY PLUGGING.

Major Warner Intimates That He Will Have Something More to Say Later.

The charge of Major William Warner, senior counsel in the Darragh bank wreck-ing case, that the jury which returned a verdict finding his client guilty and fixing the penalty at two years in the penitentiary had been "plugged," caused a great deal of comment throughout the city yesterday. The fact that the charge was made in open court was taken as evidence that Major Warner was reasonably certain of his ground and felt that the statement was well warranted by the facts in the case. Although Major Warner declined to discuss that phase of the case at all yesterday on the ground that the time for submitting his evidence to the people is not ripe, it is pretty well understood that the public has not heard the last of the charge by any means. Major Warner has ninety days in which to perfect an appeal from the finding of the jury, and it is not probable that he will disclose the facts in the case before he has perfected an appeal.

"I do not care to talk about the jury at all just now." said Major Warner to a reporter for The Journal yesterday. "I may have something to say later on." the penalty at two years in the peniten-

To The Journal.

The "plugged jury" talk going the rounds about the Darragh case is not clear, in many respects. Was the jury plugged to give him only two years or plugged to give him more than he deserved? Many people think the jury was plugged to give him two years when he should have had more.

There is nothing startling about plugging juries in Jackson county. It seems to be a case of "plug" going and coming.

Two Suspects Run In.

Chief Hayes, while making a personal round of the East side of the city, last night, arrested two suspictous looking characters at Independence and Lydia avenues, about 11 o'clock. He sent the men to Central police station in the patrol wagon. Each man carried a revolver and several keys were found on one, who gave the name of John W. Martin. The other gave the name of George Howard, and is supposed to be a brother of Ben Howard, who was arrested Wednesday night, charged with several jobs of safe blowing. Both men were held for investigation. ing.

LATE HOURS.

A woman in society is obliged to keep late hours. She must attend receptions and balls. She seldom allows herself a quiet evening at home. Her whole time is taken up in keeping engagements or entertaining at her own home. How often ioes she dress for a grand, formal occasion with throbbing brow and trembling hands. And when she returns in the sma' hours" how often does she sink into

easy chair with a sigh of complete weariness. She is too nervous to sleep. Her cheeks are hot and feverish, yet she shivers with the cold. The

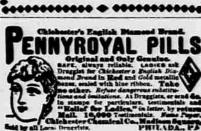

with the cold. The cold. So m be r dawn is breaking; everything looks dismal and dreary around her. Presently she falls into a sleep of perfect exhaustion. It is a sleep full of unpleasant dreams, and when she wakes it is only to find herself more tired, if possible, than before. If every society weman knew the value of Pe-runa at such a time, if they could realize the invigorating, strengthening effect that Peruna would have, how much misery could be avoided. If the weary housewife, with her ceaseless round of duties; the overworked school girl, anxious to graduate with high honors; the haggard clerks, working early and late for the necessaries of life, knew of Pe-ru-na and its wonderful recuperating powers, they would never be without it. The name of James Halpin, a contractor, and a brother of Inspector Halpin, was forged to the check and M. S. Giles' names was indersed on the back, it being also a forgery. It is believed that McNamara forged both names to the check. He secured only \$2 on the check from Mr. Curtis, McNamara is now under bond to appear in the criminal court to answer to charges of stealing a horse and buggy from Clerk Helly O'Neill, of the Wyandotte county criminal court, several weeks ago and also for stealing grain from a Missouri Pacific car in the East bottoms.

ANOTHER JACOBSON "CLUE." Chief Hayes Has Dug Up Anot Overwhelmingly Suspicious Thing

Against Still Another Man! Dan Howard, alias Frank Dignon and John Walker, suspected thieves, who fell into the hands of the police, were fined \$200 and \$50, respectively, in police court yesterday for vagrancy. They were committed to the workhouse in default of payment.

Chief Hayes has a theory that Howard may have been concerned in the shooting of Officer Jacobson last summer at Nineteenth street and Tracy avenue. He is about the size of the man who was seen running away after the shooting and he has been in Kansas City several months. At Howard's room, on Locust street, a can of powder was found shortly after his arrest, along with other safe blowing appliances. The day following Jacobson's murder the detectives found a can of powder under a bridge near the scene of the shooting. It was in a can of exactly the same make as the one taken from Howard's room Wednesday night, but was smaller. to the workhouse in default of payment.

Walter Stoneking, of Seventeenth street Walter Stoneking, of Seventeenth street and Agnes avenue, was arrested last night by Detectives McAnany and O'Flaherty, on a charge of stealing a horse, saddle and bridle from J. B. Smith, of Mound Ridge, Kas. Sparks Bros., at Twenty-third street and Grand avenue, purchased the stolen property from Stoneking, it is claimed, and sold the horse to Jesse Moberly, of 2022 Chestnut street, and the saddle and bridle to J. M. McAtee, of 2219 East Fifteenth street. The property was recovered by the street. The property was recovered by the detectives last night.

Two Men Run Amuek.

W. J. Nevecker and Frank Deatly attempted to demolish Mabel Heath's disreputable house at Fourth and Broadway by kicking in the doors and breaking windows and glass transoms with bricks. They tried to run away after doing as much damage as they could, but Officer Sam Nichols captured them at Sixth street and Broadway and marched them off to police headquarters. They were locked up on a charge of disorderly conduct. What Dr. Coffin Proposes. Police Judge Gifford yesterday granted a continuance until November 18 in the case of Mr. and Mrs. J. W.
